BLACK OPS

F-350 & F-450 MODELS

The Black Ops F-350 and F-450 models are some of the biggest, and most colossal trucks on the market today.

The Black Ops F-350 and F-450 models are more than just gigantic trucks - they are a tribute to the brave people who have fought for our freedom.

The Black Ops will take you through your next mission from start to finish. Our stealth black truck features black-out Ford ovals and deep-tinted windows, a black replacement bumper, and our exclusive door cladding enhanced with the Black Ops logo projects an aggressive stance.

Inside, the exterior Black Ops theme carries over to special leather upholstery and door panel designs, as well as custom floor mats to help you soldier on in style.
